

TASK 7 — Business Insights & Recommendations

Key Dashboard Results

- **Total Sales:** 12.64M
- **Total Profit:** 1.47M
- **Profit Margin:** 12%
- **Highest Sales Category:** Technology
- **Lowest Sales Category:** Office Supplies
- **Highest Sales Segment:** Consumer
- **Lowest Sales Segment:** Home Office

5 Meaningful Business Insights

1. Technology is the top-performing category

Technology generates the **highest sales**, at approximately **4.7M**. This indicates strong customer demand for Technology products.

2. Office Supplies has the lowest sales

Office Supplies generates approximately **3.8M**, making it the lowest-selling major category compared with Technology and Furniture.

3. Sales show strong growth over time

The line chart shows that sales increased continuously from approximately **2.3M in 2012** to more than **4M in 2015**. This indicates a positive overall sales trend.

4. Consumer is the largest customer segment

The Consumer segment contributes approximately **6.51M**, which is about **51.4% of total sales**. Therefore, Consumer customers are the biggest contributors to revenue.

5. Overall profitability is positive, but some products need attention

The company generated **1.47M profit from 12.64M sales**, giving an overall **12% profit margin**. However, the detailed sub-category analysis shows that some products, particularly **Tables**, have poor/negative profitability and should be reviewed.

2 Business Recommendations

Recommendation 1 — Focus on Technology and Consumer customers

Since **Technology** is the strongest category and **Consumer** is the largest segment, the company should maintain adequate Technology inventory and create targeted marketing campaigns for Consumer customers.

Recommendation 2 — Improve low-profit products

The company should investigate low-profit sub-categories such as **Tables** by reviewing **pricing, discounts, product costs, and shipping expenses**. Reducing unnecessary costs or adjusting prices could improve overall profit margin.
